TECRA A50
Extremely Professional

Competent and reliable, the 15.6-inch Tecra A50 is for every kind of busy professional.

Powered by the 4th Generation Intel® Core™ i5 processor and equipped with Intel® HD Graphics 4600, it has the engine you need for fast performance. The system memory has one free slot and can be expanded up to 16GB, giving you speed and efficiency no matter how many apps and files are open at the same time.

The combined benefits of a long battery life, a complete set of full-size ports, an FHD Camera with Fixed Focus technology and anti-glare display for stress-free viewing help you work more effectively, in and out of the office. Through the built-in shock protection system, it has passed the Highly Accelerated Life Test (HALT) and the Highly Accelerated Stress Screening (HASS), ensuring a high level of durability.

All this and a set of advanced security features make the Tecra A50 a great computer for hardworking professionals.
